THAI TRAVEL

Spallan 2008

*Welcome to the exclusive world of
Thavorn Beach Village, where Thai
tradition meets nature.*

.....

*T*raditional Thai architecture
blends into a lush, tropical forest.

- The enticing channels of a seemingly endless pool snake through a green wonderland.
- Expansive views - the tranquil Andaman Sea in front, and the green hills behind - reveal a resort nestled in its own private bay, far from the crowds.
- The warmth of the Thais radiates amongst our staff, all well trained in the art of genuine, but not intrusive service.
- This blend of Thai tradition, lush foliage, snaking waterways and wide, ocean vistas creates a mood of immediate relaxation that will permeate body and mind.

.....

On Phuket Island Patong Beach is famous for its bustling shopping, restaurants and pulsating nightlife. This centre of excitement can be seen across the bay - four kilometres away. It's close enough for easy visits, yet far enough to leave us in complete peace and quiet.

Our swimming pool - vast, twisting and intriguing - is a world of fun in itself. Swim down leafy waterways to discover secluded pools. Find our Aqua Beds and turn them on for a soothing massage. Discover our second pool. Swim to a pool bar. Or swim in and out of a Pool Terrace Villa Room. Try scuba diving. Or play tennis. Or snooker. Work-out in our gym. Or just relax.

*O*ur beach is just a splash away from this incredible pool. At high tide it provides delightful swimming in crystal clear waters. At low tide it's ideal for exploring marine life or snorkelling on the fringing reef.

*B*athrooms are simply
luxurious, with separate baths
and showers. Many have
private jacuzzis.
We set new standards of luxury.

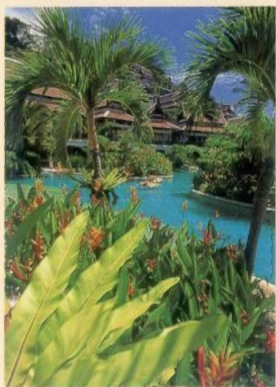

Our rooms match the spaciousness, character and quality of the whole resort. Pool Terrace Villa Rooms give direct access to the pool from your balcony. Poolside Villa Rooms are beside the pool, yet on the first floor, offering beautiful views of our lush gardens, the pool and wide ocean vistas.

Ocean View Villa Rooms treat you to some of Phuket's finest ocean panoramas, and every balcony here has a private open-air jacuzzi.

Here is only one of two resorts on Phuket Island, the other being our sister hotel, Thavorn Palm Beach, where you can find and enjoy more than 1,500 different species of plants and flowers, most being native to our own tropical environment. Here, tradition and culture blend into a magnificent botanic garden.

The beach is right in front. The pool and restaurants are close by. In these bungalows the whispering of the wind in the casuarinas can lull you to sleep. Our old, friendly beach-side atmosphere remains, both in the Seaview and Gardenview Bungalows.

The original beach-side Bungalows are still here as a popular option for our long-time clients and others seeking top value. The rooms are comfortable, offering all expected modern amenities.

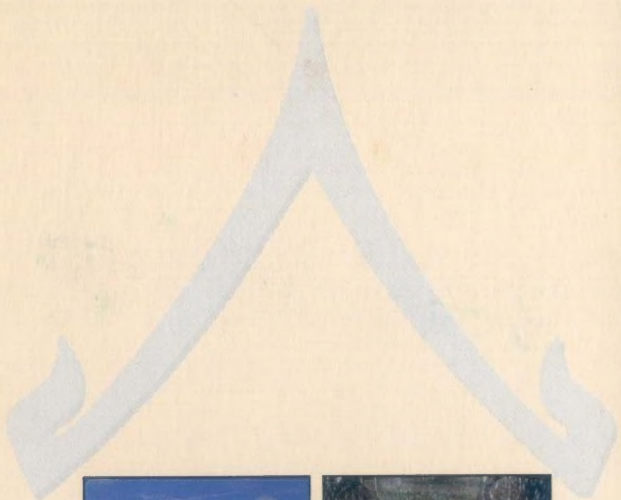

Abundant seafood fresh from the Andaman Sea,
 Thai dishes with the aromas and fine spices of
 a 1,000 year tradition - or old favourites
 from around the world -
 Thavorn Beach Village
 offers them all.
 We do it with a special
 Thai touch - in the
 most beautiful of
 traditional, tropical
 environments.

Beyond the private world of the Thavorn Beach Village lies a region of stunning beauty. We offer tours to the most interesting places, and transport to all of the island's many attractions. Go game fishing, sailing, sea canoeing, scuba diving, island hopping or drive yourself across the map. We can arrange golf, transport to Patong... or anything else your holiday heart desires.
